1923

ROCHESTER PRINTING COMPANY
ROCHESTER, N. H.

Inaugural Address

By Mayor WILLIAM S. DAVIS

Gentlemen of the City Council:

My address to you today will be brief. The citizens of Rochester have elected you and I to take charge of the City's affairs for the year 1924. I appreciate very much the honor conferred upon me, and I realize the responsibility of my position deeply. The one gratifying feature, however, is to know that you are to share that responsibility with me. I know I speak your mind when I say, "We want to make good," therefore, I plead for unity. With your assistance, your Mayor can accomplish most everything required of him. Without your cooperation his work will be difficult. The tax payers of this City will watch us closely; we will be criticised, but if we are honest with each other and honest with the City, then as this year draws to a close we can look with plasure on the service we have rendered. We live in an age of action; the public demands service; let us continue the good work by helping to make Rochester a larger and more progressive City in which to live.

Gentlemen, in the discharge of my duties I pledge to you to do the right as God giveth me to see the light.

FINANCIAL STATEMENT, JANUARY 1, 1924

Debit

Municipal Bonds	$126,000 00

Net Indebtedness		$131,713 52
Decrease of debt during 1923		23,052 56

Assets of Water Works

United States Certificates	25,000 00

SCHOOLS

The public school we look upon with pride, for herein lies the future success of this City. The greatest public institution this city supports by taxation is the School. A larger per cent. of taxes goes to this department than to any other. However, I believe this is right. Similar conditions are found in all progressive cities. The teacher is the most important asset toward developing an efficient school. We should see to it that Rochester has as efficient teachers as it can afford. Many of the larger communities and nearly all of the cities in the

State have vocational courses in their public school systems. Possibly it is time for Rochester to be fully informed upon this subject. Rochester cannot afford to let its school buildings deteriorate. A few repairs and improvements made each year is a good business proposition.

STREET LIGHTS

Nothing is so noticeable as one enters a city in the evening than to find it poorly lighted. I have thought a few added lights would improve our square. I find there is less danger from burglary when a city is well lighted, and for this reason alone, I would favor a well lighted business section.

ROADS, BRIDGES AND DRAINS

I am a strong believer in good roads. The high cost of State and City tax one must pay before one is allowed to start their automobile, makes the automobile owner expect good roads, and you will find that there will be a greater demand from the public for better roads. Many of our streets are in very much need of repair. I think it very poor economy to neglect our highways for one year as it is very hard to regain what you have lost even in that short time. The heavy trucks are so much in use on our streets, that the very day that the street starts to give way, it is soon destroyed. I am in favor of keeping the highway in the rural district in good repair; by so doing, you bring business to our City. I am a strong supporter of Hot Top streets, and I will favor a liberal appropriation for this department.

SHADE TREES, PARKS AND COMMONS

We should bear in mind that our shade trees and commons will add either credit or discredit to our City, therefore, we should have them properly cared for. I think Dominicus Hanson Park could be made one of the most beautiful parks in this section. I would favor having more swings and settees for the public use, also, having a care taker to look after the property during the vacation season, as I find you cannot keep the property protected unless you have someone on the grounds most of the time.

FIRE DEPARTMENT

My attention has been called to this department many times this year, as Rochester has had many sad and destructive fires, and I know you will agree with me when I say that our Fire Department cannot be beaten for the valuable service they have rendered. I have visited the Fire Chief and had him tell me what improvements he would like. I ask the gentlemen that represent this committee to visit Chief Nute, and I recommend that you take such measures as you deem advisable to improve this department. I know you will find it in very much need of attention.

SIDEWALK DEPARTMENT

We all like good sidewalks and I am in favor of building all we can, but, one thing I promise you, I shall try and improve our sidewalk on South Main Street. I, like many others, have come to grief by not being familiar with the rise in the walk at one certain place.

WATER WORKS AND SEWERS

Knowing as I do very little of this department, I have asked our Superintendent to give his opinion as to the condition of this department and what should be done to improve conditions therein, and this is what I find:

There should be a new gate house constructed at the reservoir, as the one now in use is too small, and the walls are badly cracked. It would be impossible to renew the gate valves in the bottom of the chamber, owing to the small space, and they should be replaced soon.

To give a sufficient water supply when the City is taking water from Round Pond, there should be another 12-in. main running parallel with the one now in use. This would mean about one-half mile of pipe. There is a line of 16-in. pipe laid under water through the reservoir to the dam. Below the dam at the reservoir there is a cross over valve that allows the surplus water to feed into the old 12-in. main to City. This 16-in. main is laid to a point about 300 feet from the upper shore, and this would mean considerable expense to this job, as the pipe is laid in very wet land. There ought to be two cement dams built at Round Pond to keep undesirable water from contaminating the water of this Pond.

In addition to this work there remains the fire underwriters' suggestions for new main pipes from Spring Street to Central Square and up Wakefield to Glenwood Avenue.

In the Sewer Department, a power sewer cleaning machine is badly needed to remove roots now growing in some of the mains, as the few tools we have are inadequate to do this work in a proper manner.

I will respectfully ask the Committee on Water Works and Sewers to give this department their attention and report at our February Council Meeting.

POLICE DEPARTMENT

As I have been your City Marshal for the last three years, I will refrain from making many remarks as to this department. However, I am of the same opinion as two years ago. I think you should add one more officer to your present force. Quite often the Marshal is called to Gonic or East Rochester; then there is no officer on duty in the City. Knowing as you do the great wave of crime in other cities, you must expect sooner or later it will reach this City. It is better to play safe than to be sorry when it is too late.

SALARIES OF CITY OFFICERS

I favor the hiring of good, efficient employees in every department in this City. The high cost of living will not allow us to reduce wages at this time, and I am free to say I do not approve of cutting salaries. I find you get better results when you pay your employees a living wage. No person will work for your interest when under paid. You usually get what you pay for, nothing more. I would favor the election of one tax assessor to remain in the Assessors' Office every working day of the week, hours and salary to be fixed by the City Council.

THE PUBLIC LIBRARY

In a recent state report our public library stood fifth in the state in circulation, following Manchester,

Nashua, Concord, and Portsmouth in the order named. In addition to providing books for recreation and study, it is the reference library of the schools and of every citizen of Rochester.

Many of our boys and girls never complete the high school course and only about one in twenty-five ever have the opportunity for higher education. The library is the poor man's college. The city cannot help the boy or the girl to a college education no matter how ambitious or worthy they may be, but it can provide books for them to study and it can see that the library is so equipped that it can supplement not only the high school but the college and be able to furnish exact and up to date information on every subject.

WHITE PINE BLISTER RUST

My attention has been called to this Department. Record of work performed during 1923.

Currant and Gooseberry Bushes Destroyed

Wild Gooseberry	5,619
Skunk Currant	17,436
Wild Red and Black Currants	12
Cultivated Bushes	40
Total	23,107

Necessity for Future Work

While the Forestry Department believes that an excellent showing was made in the first year's work of controlling blister rust in Rochester, still, nevertheless, it is very important that all pine areas of the City

receive similar protection. The Department therefore recommends that the City of Rochester make an appropriation of $1,000 for continuing control measures during 1924, in areas not yet covered. The State will increase such an appropriation 25 per cent., provided State funds available for such purposes permit.

OPERA HOUSE

Sending and receiving radio communications now made practical, provides a new use for the Opera House. By installing receiving and sending appliances, the people of Rochester can listen to concerts, lectures, etc., in the most distant parts of the country, and very soon in foreign countries, and can transmit lectures and speeches to all parts of the State to be heard in homes and public halls equipped with receiving appliances. Such entertianment and instruction will be of great value to our people.

CONCLUSION

Gentlemen:

Please do not misunderstand me at this time. I do not expect we can place in efficient condition every department I have called to your attention, but I do expect we can improve in some of them. At this time I have read from one side of the slate; one year hence the public will read from both sides of the slate, and by the reading of that slate you and I will either stand or fall.

City Government

AS ORGANIZED JANUARY 2, 1924

MAYOR

WILLIAM S. DAVIS

COUNCILMEN

Ward One	CHARLES S. CLARK HARRY G. BICKFORD ELIHU A. CORSON

Important Resolutions and Orders

PASSED BY THE CITY COUNCIL

TO RAISE MONEY IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That the Committee on Finance is hereby authorized to hire on note or notes of the City a sum not exceeding $10,000.00 in anticipation of taxes, at such times as the balance in the treasury will make it necessary.

Passed January 3, 1923.

TO RAISE MONEY WITHIN THE SPRINKLING PRECINCT

Resolved by the City Council of the City of Rochester:

That the sum of twenty-five hundred dollars be raised by taxation within the sprinkling precinct, in accordance with an act of th legislature creating said precinct.

Passed January 23, 1923.

FOR ANNUAL APPROPRIATION

Resolved by the City Council of the City of Rochester:

That for the support of the various departments of the City of Rochester for the year 1923, there be raised by taxation the amount two hundred fifty-six thousand

dollars ($256,000.00) and the assesors are directed to assess that amount with such overlay as may be thought necessary.

Passed January 23, 1923.

TO HIRE IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That the Committee on Finance be authorized to hire on note or notes of the city a sum not exceeding fifty thousand dollars ($50,000) in anticipation of taxes.

Passed March 6, 1923.

TO INVEST SURPLUS OF WATER DEPARTMENT

Resolved by the City Council of the City of Rochester:

That the City Treasurer, John L. Copp, be and hereby is authorized and requested to invest by purchase of United State Certificates all the money now on hand and that will be on hand in the Water Department after July receipts are collected, over and above the amount necessary for the operating expenses of the Department.

Passed March 6, 1923.

AMENDMENT TO ORDINANCE RELATING TO SALARIES

Be it Ordained by the City Council of the City of Rochester as follows:

That Section 1, of Chapter 24, of the City Ordinances, relative to salaries of City Officials, as amended

January 7, 1920, and December 9, 1920, be further amended by inserting after the word "dollars" in the second line of the third paragraph thereof the following words:—"and in addition thereto twenty-five cents for every permit of registration of automobiles issued by him" so that said paragraph as amended shall read as follows:

"The City Clerk sixteen hundred and fifty dollars and in addition thereto twenty-five cents for every permit for registration of automobiles issued by him and an assistant in the Clerk's office to be engaged by the Clerk on the following schedule:—said assistant to be paid six hundred dollars the first year, seven hundred dollars the second year and eight hundred dollars the third year. When a new assistant is engaged the same schedule shall be followed. The City Clerk and Assistant Clerk to be paid weekly from the Salary Department."

Passed April 3, 1923.

TO REMOVE CAR TRACK FROM NORTH MAIN STREET

Be it Resolved by the City Council of the City of Rochester:

That the Dover, Somersworth and Rochester Street Railway Company be requested to remove as soon as may be reasonable to do so, its rails, ties, poles, together with all over-head wires and equipment, between the north end of the stone bridge on North Main Street, and the Y in front of Ainslie's Drug Store on Central Square in the City of Rochester, and to put the highway occupied by its tracks and poles in as

good condition as is the adjoining portion of the highway, in accordance with Order No. 1274 of the New Hampshire Public Service Commission, made February 13, 1922.

That an attested copy of this resolution, together with the vote thereon of the City Council, be given to said Railway Company, and another attested copy thereof be filed with the Public Service Commission.

Passed May 1, 1923.

TO PURCHASE BOG FOR CITY DUMP

Resolved by the City Council of the City of Rochester:

That the Purchasing Committee be authorized to buy a suitable site to be used for a city dump, the same to be under the care and supervision of the Sanitary Officer, at a price not exceeding four hundred dollars, to be paid out of any monies not otherwise appropriated.

Passed May 1, 1923.

TO HIRE IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That the Committee on Finance be authorized to hire on note or notes of the City a sum not exceeding twenty-five thousand dollars in anticipation of taxes.

Passed May 1, 1923.

AMENDMENT TO ORDINANCE RELATING TO SALARY OF TAX COLLECTOR

Be it Ordained by the City Council of the City of Rochester as follows:

That paragraph 7 of Section 1, of Chapter 24, of the City Ordinances, be amended by striking out all of said paragraph relating to the compensation of the Collector of Taxes, and substituting therefor the following:

The Collector of Taxes fifteen hundred dollars and postage; one hundred and twenty-five dollars payable monthly, until one thousand dollars is paid; the balance of five hundred dollars to be paid when all unpaid taxes, less abatements, shall be collected and paid in to the City Treasurer, so that said paragraph as amended shall read as follows:

The Collector of Taxes fifteen hundred dollars and postage; one hundred and twenty-five dollars payable monthly, until one thousand dollars is paid; the balance of five hundred dollars to be paid when all unpaid taxes, less abatements, shall be collected and paid in to the City Treasurer.

All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed June 5, 1923.

TO ENGAGE A TRAFFIC OFFICER

Resolved by the City Council of the City of Rochester:

That the Committee on Police be authorized to employ a traffic officer for a period not exceeding four months, at a salary not exceeding $100.00 per month.

Said traffic officer shall be competent and satisfactory to the City Marshal, and shall be at all times, while on duty, under the supervision and direction of the City Marshal and Mayor, and may at any time be removed for cause by the Committee on Police.

Said salary shall be paid from any monies not otherwise appropriated.

Passed June 5, 1923.

TO HIRE IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That the Committee on Finance be authorized to hire in anticipation of taxes a sum not exceeding ten thousand dollars. The same to be hired on note or notes of the City and to be taken up at the earliest possible date that the balance in the treasury will permit.

Passed July 3, 1923.

ANNUAL VACATION FOR POLICE OFFICERS

Resolved by the City Council of the City of Rochester:

That the regular police officers be given a vacation of one week with pay, the same to be under the supervision of the Committee on Police.

Passed July 3, 1923.

TO CONSTRUCT DAM AT CITY DUMP

Resolved by the City Council of the City of Rochester:

That the Purchasing Committee be authorized to contract for the building of a dam to prevent the

flowage from the city dump into the Cocheco River, at a cost not exceeding one hundred and fifty dollars, to be paid out of any monies not otherwise appropriated.

Passed July 3, 1923.

TO MAKE REPAIRS AT CENTRAL FIRE STATION

Resolved by the City Council of the City of Rochester:

That the Committee on Fire Department be authorized to move the tanks and machinery used in connection with the Fire Alarm System from the present quarters out into the large basement, and to partition off a battery room in the second story of Fire Station Building.

The expense of such changes not to exceed three hundred and fifty dollars.

Passed August 7, 1923.

APPRECIATION AND ACCEPTANCE OF HANSON CARNIVAL GROUNDS

Resolved by the City Council of the City of Rochester:

That, whereas, Mr. Charles A. C. Hanson has executed a deed of a valuable tract of land near Dominicus Hanson Park, to the City of Rochester as Trustee, for the sole and only use of the public, to be known and forever maintained as the Joseph Hanson Carnival Grounds;

Be it hereby resolved that the City Council of the City of Rochester hereby accepts this deed of trust in behalf of the public, and hereby expresses its gratitude and appreciation for this splendid gift, and for the

foresight and public spirit which prompted the act; and, be it further resolved that a copy of this resolution be spread upon our records, and a like copy transmitted to Mr. Hanson.

Passed September 4, 1923.

TO PROVIDE FOR ANNUAL VACATION

Resolved by the City Council of the City of Rochester:

That the first and second auto drivers of the Fire Department be given a vacation of one week with pay. The same to be under the direction of the Chief Engineer.

Passed August 23, 1923.

RESOLUTION TO CHAMBER OF COMMERCE

Resolved that the City Council extend a vote of thanks to the Chamber of Commerce for the gifts of six receptacles for waste which have been placed about the City, and, that we hereby express our appreciation for the cooperation and interest in Municipal affairs which is manifest on the part of said organization.

Passed October 2, 1923.

AMENDMENT TO ORDINANCE RELATING TO PLUMBING OF BUILDINGS

Be it Ordained by the City Council of the City of Rochester as follows:

Amend Rule 9 of Section 19, Chapter XXVII of the General Ordinances by striking out after the word

"rooms," in the thirteenth line thereof, the following:—"Local vent pipes must be provided for all water-closets and connected with a heated chimney flue through a cast or wrought iron sleeve extending at least four inches from the face of the chimney. If it is impracticable to connect into a heated flue, then the vent pipe shall be carried at least two feet above the roof." Further amend by striking out after the word "No" in the nineteenth line thereof the words "pan closets or," so that said Rule as amended shall read as follows: Rule 9. Water-Closets.—Every building used as a dwelling, in which plumbing arrangements are to be placed and connected with a public sewer shall be supplied with a water-closet for every fifteen persons and one for each family not in excess of that number. Every water-closet shall be in a separate apartment used only for sanitary purposes, and shall be well lighted and ventilated, preferably by means of a window communicating directly with the open air; but interior water-closet compartments shall be ventilated by means of an air tight shaft of at least four inches in diameter opening into the outer air, and said shaft shall not be used to ventilate habitable rooms. No saddle hubs allowed.

Every water-closet, or line of adjoining water-closets, shall be constantly supplied with water from a tank or cistern used for no other purpose, through a flushing pipe of not less than one and one-fourth inches in diameter; provided, however, that this shall not apply to water-closets situated outside of, or within the building proper, where there is danger of freezing, but such closets may receive their flushing direct from the water service subject to the approval of the inspector.

All ordinances and parts of ordinances inconsistent

with this Ordinance are hereby repealed, and this Ordinance shall take effect upon its passage.

Passed November 7, 1923.

RESOLUTION TO TRANSFER FUNDS

Resolved by the City Council of the City of Rochester:

That if found necessary in closing the accounts of the year to transfer from a department where there is a balance to a department where there is a deficit, the Committee on Finance be instructed to make such transfer.

Passed December 6, 1923.

Summary of Water Works

RECEIPTS

1922 water rates collected,	$8,015 29
1923 water rates collected,	16,636 65
1923 additional rates collected,	3 00
Previous water rates collected,	8 20
Plumbing bills collected,	2,325 63
Previous bills collected,	184 32
Miscellaneous bills collected,	142 25
Interest on U. S. Government certificates,	656 23
Interest on municipal bonds,	560 00
Municipal bonds matured,	14,000 00
Cash on hand (uninvested) Jan. 1, 1923,	453 11
	$42,984 68

EXPENDITURES

Plumbing account,	$6,139 60	
Maintenance account,	7,314 42	
Construction account,	1,202 45	
Water bond matured,	1,000 00	
Investment U. S. certificates,	25,000 00	
Accrued interest,	452 24	
Cash on hand (uninvested) Jan. 1, 1924,	1,875 97	
		$42,984 68

Of this amount $741.96 is in the hands of the Clerk.

ASSETS OF WATER WORKS, JANUARY 1, 1924

United States certificates,	$25,000 00
Cash on hand (uninvested),	1,875 97
	$26,875 97

I hereby certify that I have examined the accounts of the Clerk of Water Works for the year 1923 and I believe the above statement to be a true and correct statement.

BYRON H. HORNE,

Auditor.

February 4, 1924.

Clerk of the Water Board

In Account With Rochester Water Works

Cash on hand Jan. 1, 1923,	$316 49
1922 water rates collected,	8,015 29
1923 water rates collected,	16,636 65
1923 additional rates collected,	3 00
Previous water rates collected,	8 20
Plumbing bills collected,	2,325 63
Previous plumbing bills collected,	184 32
Miscellaneous bills collected,	142 25
Interest on U. S. Government certificates,	656 23
Interest on municipal bonds,	560 00
Municipal bonds matured,	14,000 00
	$42,848 06
Paid treasurer,	$42,106 10
Cash on hand,	741 96
	$42,848 06

I have examined the accounts of the Clerk of Water Works for the year 1923 and find the same properly vouched and correctly cast and find the balance in his hands December 31, 1923, to be seven hundred and forty-one dollars and ninety-six cents as shown by the above statement.

BYRON H. HORNE,
Auditor.

February 4, 1924.

WATER BOND ACCOUNT

Water bonds outstanding, or not presented for payment, January 1, 1923,	$5,000 00
Sinking fund created to take care of such bonds,	$4,000 00
Paid from earnings, 1923,	1,000 00
	$5,000 00

INTEREST ACCOUNT

Paid John L. Copp, Treasurer, interest on water bonds,	$ 20 00
Accrued interest on U. S. certificates,	432 24
	$ 452 24

Report of

Superintendent of Water Works

For the Year Ending December 31, 1923

To the Committee on Water Works:

Gentlemen:—The thirty-second annual report of this department is herewith submitted.

Source of supply during the year: Round Pond, Jan. 1 to Aug. 25; Reservoir, Aug. 25 to Sept. 5; Round Pond, Sept. 5 to Dec. 31. The water has been good and we had an abundant supply and the consumers have not had to curtail their use of the water on lawns, as this has been the case in a great many places elsewhere.

We took advantage of the low water at the Pond and removed a lot of stumps from the shores. In the near future there should be two cement dams constructed at this Pond in order to keep back swamp water as these places are breeding ground for algae. As soon as the Department can, financially, I would recommend this being done.

We removed a line of old ¾-in. galvanized wrought iron pipe which was replaced by 1-in. galvanized wrought iron pipe on School Street, Gonic, as this pipe had become badly filled with rust. We removed thirty-six feet of old 1½-in. pipe for the same reason on Spring Street, East Rochester, which was replaced by 2-in. galvanized wought iron pipe.

Construction is as follows:

Harding Ave., Gonic, 2-in. Galv. W. I. pipe,	351 feet 3 inches
Plante Street, 1-in. Galv. W. I. pipe,	194 feet
Grove Street, Gonic, 6-in C. I. B. & S. pipe, and installed hydrant corner Harding Avenue,	498 feet
Lowell Street Extension, 1-in. Galv. W. I. pipe,	715 feet
Washington Street and off Washington Street, 1½-in. Galv. W. I. pipe,	229 feet 2 inches
Total,	1,987 feet 5 inches

Total laid to date, 36 miles, 1,167 feet, 8 inches.

Number of hydants installed,	1
Hydrants repaired and replaced steamer type,	8
Hydrants to date,	189
Meters installed,	75
New services laid during the year,	34
Services discontinued,	4
Services relaid,	83
Services to date,	1,803
Joint leaks in main pipe,	6
Leaks in service pipes,	3

Number of feet of service pipe laid during the year:

¾-inch, Galv. W. I. pipe,	4,255 feet, 4 inches
1-inch, Galv. W. I. pipe,	666 feet, 6 inches
1¼-inch, Brass pipe,	116 feet, 8 inches
¾-inch, Brass pipe,	20 feet, 2 inches

An inventory of tools and stock in this department is on file in the City Clerk's office.

About 80 per cent. of all services are now metered.

The following tables gives size, make and number of meters in use in the City:

	$\frac{5}{8}$	$\frac{3}{4}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	2	3	4	6	8
Gamon	19									
Hersey	17									
Lambert	394	42	6							
New American	1		2							
National	385	75	48		4	3	2	1	2	1
Trident	381	4	2		3	2

	1,230	122	62	1	9	7	2	1	2	1

Owned by customers,	268
Owned by city,	1,169
	1,437

To the Water Committee, Mayor and Honorable Council, I wish to extend my thanks for the assistance and support accorded me during the past year.

Respectfully sumbitted,

J. FRANK ELLIS,

Superintendent.

Report of

Superintendent of Sewers

For the Year Ending December 31, 1923

To the Committee on Sewers:

Gentlemen:—The annual report of the Sewer Department is herewith submitted:

Number of permits issued during the year to do plumbing,	39
Connections to main sewer,	28
Connections to date,	1,456
Connections cleaned,	20

We have cleaned main sewers on Furber Street, Summer Street and McIntire Court. Pearl Street sewer was extended 38 feet, Lowell Street sewer was extended 56 feet, and Chestnut Street Extension sewer was extended 100 feet.

Owing to the amount of work on hand we were unable to flush only once this year.

An inventory of materials and tools in this department is on file in the City Clerk's office.

Respectfully submitted

J. FRANK ELLIS,

Superintendent.

Report of City Marshal

To the Honorable Mayor and City Council of the City of Rochester:

Gentlemen:—I hereby submit the annual report of the Police Department for the year ending December 31, 1923:

The police for the year 1924 consists of the following officers: Isaac W. Rankin, City Marshal; James B. Young, Assistant Marshal; Adelard Duquette, Night Watch; J. Shapleigh Allen, police at Gonic; George Herries, police at East Rochester.

Whole number of arrests for the year,			173
No. 1	Drunks,	98	
2	Assaults,	8	
3	Keeping for sale,	8	
4	Brawl and tumult,	2	
5	Unlawful possession,	22	
6	Operating auto without State license,	7	
7	Operating auto faster than reasonable and proper,	6	
8	Did catch brook trout less than 6 inches in length,	1	
9	Did kindle fire on land of B. & M. R. R., without permit,	1	
10	Murder,	2	
11	Did operate auto while under the influence of liquor,	3	

12	Did attach number plates assigned by State Commisisoner to car not registered,	2	
13	Aggravated assault,	2	
14	Fishing without State license,	3	
15	Gambling,	1	
16	Reckless operating automobile,	2	
17	Threat to do bodily harm,	2	
18	Setting traps not legally stamped,	1	
19	Operating automobile not registered,	1	
20	Hunting without State license,	1	
			173

DISPOSED OF AS FOLLOWS:

No. 1 Pay fine and costs of court in 88 cases; serve 30 days at House of Correction in 4 cases; in last six cases pay cost of court, 30 days at House of Correction, 30 days suspended, mittimus at call of the Marshal.

No. 2 Pay fine and costs of court.

No. 3. Pay fine and costs of court, 30 days in jail, 30 days suspended.

No. 4 Pay fine and costs of court.

No. 5 Pay fine and costs of court in 11 cases; in last case serve 60 days in jail.

No. 6 Pay fine and costs of court.

No. 7 Pay fine and costs of court.

No. 8 Pay fine and costs of court.

No. 9 Pay costs of court, 60 days at House of Correction.

No. 10 Continued to Superior Court wthout bail in one case; in second case sent to Concord Hospital for observation.

No. 11 Pay fine and costs of court, 30 days in jail and lose license.
No. 12 Pay fine and costs of court and lose license.
No. 13 Pay fine and costs of court, 30 days at House of Correction, 30 days suspended.
No. 14 Pay fine and costs of court.
No. 15 Pay fine of $100 and costs of court.
No. 16 Pay fine and lose license.
No. 17 Pay cost of court and furnish bail to the amount of $200 to keep the peace for one year.
No. 18 Pay fine and costs of court.
No. 19 Pay fine and costs of court.
No. 20 Pay fine and costs of court.

Number of lodgers for the year,	439
Paid for food for prisoners and lodgers,	$6.60
Doors found unlocked during year,	7

I respectfully thank the Honorable Judge, Mr. Worcester, and Solicitor Smart for their assistance and kind co-operation during my three years as your City Marshal.

Respectfully submitted,

WILLIAM S. DAVIS,

City Marshal.

Report of

Chief Engineer of Fire Department

To the Honorable Mayor and City Council:

In rendering my report of the Fire Department for the year ending December 31, 1923, I will state that we haven't been so fortunate this year as last year. We have had a number of bad fires this year, and a large amount of valuable property was involved in these fires. I believe the City Government should see that we have more and better fire fighting equipment. It pays to be prepared for whatever emergency may arise.

There have been twenty-four bell alarms, one hundred seven still alarms, mostly chimney fires, nineteen brush and forest fires in the City proper; four bell alarms, twelve still alarms at East Rochester; four bell alarms, twelve still alarms at Gonic; making a total of one hundred eighty-two alarms for the year.

The amount of property involved is as follows:

Value of buildings,	$398,150 00
Insurance on same,	275,650 00
Losses paid,	35,648 03
Value of contents,	739,171 96
Insurance on same,	597,932 40
Losses paid,	50,622 98

There has been some improvement this year. We have moved the air tanks from the cellar under the horses into the other cellar, which has saved the tanks and which was not a fit place to go into. The labor for scraping the tanks and painting them was done with no expense to the City.

Last year we recommended that the City purchase two motor trucks for Cocheco and Torrent stations and we recommend the same this year as we think the City has outgrown the hand drawn apparatus.

I will recommend that the battery system that is now in use be changed for the new system, and that one corner of the barn chamber be taken to make the change. The old system is an expensive one and the new one would cut down the expense in time. I would recommend that the City purchase a triple combination pumping engine chemical and hose car or some other suitable truck for Central Station. The ladders on the hook and ladder truck are in bad condition. The truck does not carry enough ladders to meet the demands of a large building fire and I think this should have your consideration.

There has been purchased for the Fire Department during the year, ten corduroy coats, ten hard boiled fire helmets, three engineer's coats, two play pipes, and two search lights.

In behalf of the Fire Department, I will take this opportunity to extend our sincere thanks to all those who have been so kind and have given to the Department to show that they appreciate our good work.

In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the

officers and members of the Fire Department for the promptness in which they have discharged their duties during the past year.

In conclusion, I will take this method to thank the Mayor and Fire Committee and members of the City Council for what they have done for the Fire Department during the year just ended and hope the year which we have just entered upon will see the Department equipped with some up-to-date apparatus.

Respecfully submitted,

JOHN F. NUTE,

Chief Engineer of Fire Department.

ROCHESTER FIRE ALARM

16 North Main street, corner Bridge street.
17 Main street, corner Congress street.
21 River street, corner Lafayette street.
23 Waldron avenue, corner Chestnut street.
24 Pine street, corner Brattle street.

2 Fire all out.
6 Brush fire or fire at a distance.
22-22 Two blasts on the fire alarm repeated once will be the signal for no school.

Telephone service for calling the Chief Engineer at Fire Station, call 89; residence, 251-Y

Report of City Solicitor

To the Honorable City Council of the City of Rochester:

It is common knowledge that an unusual number of legal and somewhat vexatious and complicated questions have been raised during the past year, and an unusual amount of work required to correctly solve them, and I am pleased to report that to my knowledge no money has been paid in settlement of any controversies, no suits have been begun, and none are now pending against the City.

While the policy of the Police Department has been to protect the innocent as well as to punish the guilty, its business management and its work in the prevention of crime has been very successful. Many prosecutions have been brought and I am told the financial receipts have more than paid the cost of maintenance by several hundred dollars.

Respectfully submitted,

ELMER J. SMART,

City Solicitor.

Rochester, N. H., December 31, 1923.

Report of Board of Health

To the Honorable Mayor and City Council of the City of Rochester:

We herewith submit our report for the year ending December 31, 1923.

Number of cases of contagious or infectious diseases reported:

Measles,	43	
Scarlet fever,	6	
Small pox,	6	
Diphtheria,	1	
No deaths		
Number of deaths from all causes (not including stillbirths),		138
Number of stillbirths,		8
Number of deaths from cancer,		24
This is over 17% of the deaths from all causes during the year. Probaly earlier treatment might have saved several of these cases.		
Death rate per thousand, basis of 10,000 population,		13.8
Number of houses fumigated,		14
Number of rooms fumigated,		48
Number of complaints investigated,		42
Number of dead animals buried,		14

Respectfully submitted,

D. L. STOKES, M. D.,
FORREST L. KEAY, M. D.,
JOHN I. RANKIN,

Board of Health.

Report of Overseer of Poor

To the Honorable Mayor and City Council of the City of Rochester:

The following is a list of the names and the amount of assistance from the City furnished each applicant for the year ending December 31, 1923.

Mrs. David Morin,	$812 33
Sarah McCallion,	72 00
Mrs. D. Lessard,	35 06
Frank Canney,	10 37
Nettie Bickford,	428 69

Report of

Library Trustees

To the Honorable Mayor and City Council:

Gentlemen:—I have the honor to present the 30th annual report of the Trustees of the Rochester Public Library, also, the Librarian's and Treasurer's report for the year ending December 31, 1923.

It has been the policy of the trustees since the organization of the library to keep within the appropriation.

During the year we have bought two new desks; have paid for insurance on the building; have purchased cases for the museum to hold the valuable collection of minerals and other articles presented to the library by a former resident, the late John I. Legro, for which the trustees wish in this report to express their thanks and appreciation. We trust the citizens will visit the museum and view the splendid collection.

We would again call your attention to the needs of the library. The building is the property of the city and should be kept in repair. Again we call your attention to the condition of the basement windows. Many of the sills should be replaced by new ones; the windows puttied and painted and the doors in the basement refitted so they will shut. Especially the one leading into the boiler room, that the gas and dust may be kept from circulating through the building to

the injury of the books. We must have more shelving in the basement for books.

The main desk at the library has maintained its circulation but the branches and the children's room have lost 4,209. This is due largely to the Gonic agency having been closed while moving into new quarters.

The trustees wish to express their thanks to Mrs. Stephen C. Meader and Mrs. Gertrude Andrews for the portrait of the late Stephen C. Meader who was one of the first trustees of the Rochester Public Library, established thirty years ago.

We also appreciate the fact that the public are using the reading rooms to advantage by the increase of readers during the year.

In conclusion we would ask that the appropriation for the Public Library for 1924 be $6,500.

The trustees wish to express their appreciation of the attention shown to the patrons of the library by the librarian and her assistants during the year.

For the Trustees,

JOHN YOUNG,

Secretary.

December 31, 1923.

Report of Librarian

To the Board of Trustees of the Rochester Public Library:

Gentlemen:—The report of the work of the library for the year is herewith presented.

During the year 1923, 143 volumes have been added by gift; 82 by binding of magazines and 273 by purchase. These have cost the library an average of $2.11 per volume and have been divided as follows:—81 non-fiction; 65 juveniles; and 127 standard and popular fiction, some of the number being necessary duplicates.

A library must add the latest and most up-to-the-minute information on the subjects which are before the people, the new books which are being read and talked about as well as fill in and duplicate whenever necessary, all ancient and modern classics. There are some books which a library cannot afford to get along without and it does not take long for it to be termed out-of-date if it lets up even for one year in these things. It is surely difficult to satisfy all the demands with a $500 allowance for books.

During the early years following the custom of other libraries government documents were accessioned. This year it has seemed advisable to discard or return some of the documents which were never used. 262 have therefore been discarded; 6 volumes

have been destroyed by patrons; three lost in circulation according to the inventory; and 32 worn out. This makes a total loss to the library of 303 volumes; the net gain for the year only 195 and the entire number of volumes 23,397.

The records of the year show that 67,427 books have been given out. This is a decrease of 4,209 from last year. It is always a matter of regret to report a drop in circulation and immediately one begins to look about for a reason. To some extent this is due to the lack of new books. Rochester is a fiction reading community and these readers include people in every walk and profession in life, from the tired business man and woman, the busy doctor, the earnest preacher, the faithful teacher, the welfare worker, to those that work with their hands, or delve in the soil, or travel the road. It has always been the policy of this library to provide what the taxpayers ask for, as far forth as possible, preserving a proper division of the classes.

If the public can find in the library their recreation they feel free to come to it for assistance in their need. This tends to promote thrift and economy and prevents waste.

How much the drop in circulation has been due to lack of publicity none can tell. The library and the people have not seemed as close together this year.

For many years the library has had a big rival in the automobile, to that was added the moving pictures and now has come the radio. To be sure when skimming over the road at twenty miles an hour; when watching adventure, romance, or history develop on

the screen, or when "listening in" one cannot read, but the library can furnish books which tell how to care for and operate a car; how to write a scenario, and how to set up the radio.

The readers and students have steadily increased during the last few years. This year 22,635 were counted, an increase of 426 over last year. The reading and reference rooms often reach their entire capacity. It seems imperative that some change be made in the reference room at an early date. The best and least expensive change would be to convert the larger reading room into a reference room moving as many of the magazines to the basement as necessary.

In spite of all the inducements offered, the children have not come to the library as in previous years. The older children say "they have read all the books," and the younger children are not proving to be as great readers. They come to look at pictures as the constant and over and over use of the stereoscopic pictures which have been donated to the library will testify.

The number of books given out from this room is 16,902 a decrease of 5,309 from last year. The number of readers 16,902 a decrease of 1,071 from last year.

The agencies at Gonic and East Rochester and the house station at the home of Mr. John Allen at Walnut Grove, in which Miss Bertha Allen has taken so much interest have gone on in the same manner as heretofore. Miss Allen has given out 127 books, 214 less than last year. East Rochester, 1,346, 524 less than last year. Gonic was closed for three months during

repairs on the engine house where the agency is now located. Their circulation was 898, 293 less than last year.

The decrease in circulation at the agencies total 1,031, the decrease in the children's room was 5,309, this makes a total decrease in the different departments of 6,340 and shows an increase at the main desk of 2,131.

This larger circulation added to the general routine work, the repairing of books, which, as the library grows older is no small part of the work, the large amount of time used for reference work, the satisfying of all demands on the resources of the library, so that everyone will go away happy, is no small job. Accounting for every book, sending of over due notices, the discipline and the cutting down of the several thousand dollar needs to the purchasing power of five hundred dollars adds to the difficulties of the work.

The work of the year however has been carried on without friction and with the splendid co-operation of the entire staff.

The needs of the coming year are numerous. First and most imperative is a larger book allowance; second and of no less importance is more shelf room and last, but not least, is some hard coal for the heater. The walls, floors, furniture and valuable books and papers are being damaged almost beyond description by the greasy smoke which seems unavoidable and which makes it impossible to send any one to the basement for reference work, without an apology, or for any of the staff to work on the files during library hours.

Some of the gifts, a list of which has been added to

this report, have been almost priceless. The splendid gift of minerals from the late Mr. John I. Legro, a collection which is almost without exception, the mounted and analized botanical specimen of the late Mr. J. Edgar McDuffee, added to those given to the library several years ago by Mrs. Frederic Small, make a fine collection of the flora of New England. These should be framed and placed where students can see them. These collections together with the moths and butterflies given by Capt. Conrad and Mr. Leslie P. Snow, a few years ago, make a wonderful collection of natural history.

There have also been many interesting and valuable books among those donated and the plants for the garden, the gift of Mrs. Fannie Wallace, were again a delight.

For the gifts and for every courtesy and message of appreciation extended during the year I wish to express my thanks also for the helpfulness and good work of the assistants and the interest and kindness of the trustees.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

December 31, 1923.

I have examined the receipts and expenditures of the financial reports of the Librarian, Lillian E. Parshley, and the Treasurer, John L. Copp. I find them correctly cast and properly vouched.

JOHN YOUNG,

Secretary of the Board of Trustees.

Rochester, N. H., December 31, 1923.

ANNUAL REPORT

OF THE

School Board of City of Rochester

NEW HAMPSHIRE

For the Year Ending December 31st

Nineteen Hundred and Twenty-Three

At a meeting of the School Board of Rochester, January 10, 1924, the annual report of the Superintendent of Schools was accepted and ordered printed as the report of the School Board to the City Council and to the citizens of the city.

WILLIAM H. BUKER,

Secretary.

Rochester, N. H., January 11, 1924.

SUPERINTENDENT OF SCHOOLS AND SECRETARY OF THE BOARD

WILLIAM H. BUKER

Office at High School Building. Office hour: 4.00 to 5.00 P. M., on school days; 8.30 to 12.00 A. M. on Saturdays, except vacations. Residence, 65 Congress St.

SECRETARY TO THE SUPERINTENDENT

MYRTLE M. LOWE

Office hours: 8.00 to 11.30 a. m.; 1.00 to 5.00 p. m.

ATTENDANCE OFFICER

JOHN I. RANKIN

Report of

Superintendent of Schools

To the School Board of Rochester:

It seemed wise to both ex-Superintendent Smith and the present superintendent that the annual report this year should be written largely by the former as he was superintendent ten months of the fiscal year. Mr. Smith's recommendations are the results of four years of careful study concerning the school problems of this city, and knowing Mr. Smith for many years, I realize that his recommendations in this report should be carefully weighed by the incoming Board and citizens of Rochester. Rochester has lost a valuable school man.

Respectfully yours,

WILLIAM H. BUKER.

To the School Board of Rochester:

I herewith submit to you and the citizens of Rochester my fifth and final report, it being the thirty-second in the series of such reports.

ATTENDANCE

The attendance last year showed the unfavorable influence of exceptionally severe weather and extensive sickness. The per cent. of attendance (91.72) was the lowest since 1918-19 the year of the influenza epidemic. Illness was fatal to four pupils during the school year. The record for tardinesses was as satisfactory as last year.

EVENING SCHOOL

The total enrollment (Nov. 1, 1923) in the evening school was 111. This is encouraging because it is larger than last year's enrollment. Many evening schools in the state have declined in number of pupils. The most notable fact about our school is the unexpectedly large size of the beginners' class in English. We have added this year a class of 12 in cooking and sewing.

READING

Special emphasis was placed last year on the subject of reading—in teachers' meetings, private study by the teachers, and class-room practice. The main effort was to train pupils to get the thought from the printed page by silent reading. The methods used were based on the scientific investigations which have been made in this vital subject. After a child has

learned to read, the greater part of his practice in reading should be in silent rather than oral reading. Most of us read aloud very, very little but we are constantly reading silently for information or pleasure. Until recently school-room reading consisted of pupils rising in turn and droning monotonously from a book. Usually no serious attempt was made to obtain good expression or enunciation. It certainly was uninteresting; everybody had a book and could read the passage much more efficiently by himself. Oral reading, to be sure, is valuable and should be taught, but it can better be done by having each pupil read a practiced, familiar passage to pupils who do not have the same material before their eyes. Our main hope in developing real students is effective training in silent reading, because that is exactly the kind of reading they will have to do all through later life.

In the first three grades, in which the pupils are learning the reading process, most of the reading is properly oral. Phonics are also taught in order that the pupils may master the correct pronunciation of consonants, vowels, and groups of letters. The system of phonics to be taught has been made definite and uniform throughout the city.

WRITING

The basis of instruction in handwriting is the system of Harry Houston, supervisor of penmanship, New Haven, Connecticut. This is simple and effective. The principles are quickly mastered and easily taught. As in any system success depends on thorough and constant drill. Many rooms made a marked improvement and, what is more to the purpose, this improvement was retained over the summer vacation.

RETRENCHMENT

As far as material progress is concerned our schools during the past year have marked time, if indeed they have not fallen back. A program had been started for improving one building a year. This would keep the school plant in good condition and not entail too great a financial burden any one year. Under this plan in 1921 and 1922 the East Rochester School was painted outside, School Street was decorated inside, Meaderboro School was remodeled to conform to modern requirements, slate blackboards were put in all buildings to replace plaster or composition boards, adjustable seats and desks were furnished in more than half of the grade rooms, electric lights were put in all buildings except Gonic, a cement walk was laid around the Gonic school, the ell of the East Rochester school was shingled, and a new cement floor laid in the boys' basement at the High school.

The above is an encouraging record of progress. There still remains much to be done:—

1. The interior of the High school should be redecorated. The walls are cracked and stained, a most uninspiring sight for impressionable boys and girls.

2. A suitable lunch room should be provided at the High school. The only available place is in the basement. An opening should be cut in the wall which separates the boys' and girls' basements and counters built each side. The equipment should include a gas stove, sink, and ice-chest. Then real, nourishing lunches could be served.

3. The rooms at Gonic should be fitted with electric

lights. There are already lights in the basement for the janitor. The building was completely wired when it was built, but at that time it was customary to have the main feed wires enter the attic and the circuits are all arranged to start there. Now, however, the law requires that the main wires shall enter the basement. All that is necessary is to connect the attic wires with those in the basement and install the fixtures, a comparatively inexpensive task.

4. The hollow at the rear of the School St. school should be filled in to make a playground. The drainage of the low land is already taken care of by a large drain. The fences on either side of the school grounds need repairing and a fence should be built beside Mr. Patterson's lot. In fact the lumber for this fence is already on hand, but construction was delayed until the boundary line could be more definitely established. This necessitates surveying the lot.

5. The boiler in the Allen school and one of the twin boilers at Gonic need retubing. There is a constant danger of them giving out, this causing school sessions to be suspended. The work should be done next summer if, indeed, it does not have to be done before.

6. The Meaderboro school needs re-shingling very badly. The ceiling, which was whitened in 1922, is now stained in many places. The roofs of the Allen, School Street and Gonic schools also need repairing.

7. Thirteen rooms, containing 500 seats, are still using the old-fashioned, non-adjustable seats and desks. This means that very many of your children are sitting five hours a day in seats that do not fit them

and can not be made to fit. Such seats are uncomfortable and injurious to growing children. These rooms should be equipped with modern, adjustable furniture. Why should we save money at the expense of the children?

Notwithstanding the need of all these repairs and improvements the amount for minor repairs was cut in the 1923 budget from $1,500 (the sum expended annually for years and certainly modest enough for seven buildings) to $500; and the amount recommended for special repairs, $2,000, was reduced to $511. The larger amounts were recommended by the School Board at the December meeting, 1922, but were subsequently reduced, along with other items, to conform to the new administration's plans for economy.

These repairs and improvements will commend themselves to all who are interested in our schools and will doubtless be attended to sometime. I would also remind you of the law passed in 1923 which makes it obligatory to equip all schoolhouses with so-called panic or fire-exit bolts by September, 1924. The School Street school is already so equipped. The other buildings will have to be equipped next summer.

THE GREATEST NEED

No self-respecting community enjoys being rated as backward. Every man wants to be able to say his city is as good as another—and better. It is a fact, however, that the Rochester school system is behind the school systems of cities of similar size, or even smaller towns, in the opportunities offered to its pupils. We have no provision for mechanic arts or cooking and

sewing in our elementary schools—nor can we have on account of lack of room. Neither have we any gymnasium for the physical training of our boys and girls and the athletic games of our schools. It is very embarassing for your superintendent to listen to the expressions of amazement and regret from newcomers that a city as large as Rochester should be without this equipment which has become almost universal years ago. A third lack is special educational training for retarded and backward children. Rochester has many such children and is large enough to take care of them adequately.

It is not my purpose in this place to present the arguments in favor of these parts of a modern school system—it is not necessary, because their value is commonly recognized. In fact, many citizens have expressed their strong desire to have these opportunities in Rochester. They will cost money, but who will dare say that our boys and girls are not worth it? I have worked with and for them for over four years and I can honestly say that there is not a better group of children anywhere. Rochester can afford to provide these advantages. Its bonded indebtedness is not excessive (about $140,000) and it will under the present plans be cleared by 1932. The city is well within its legal debt limit. The tax rate is not high for these days.

How can these things be brought to pass? By building either a new junior high school or a senior high school. A junior high school is commonly composed of grades 7, 8, and 9 (the freshmen year in high school.) For the benefit of those who do not understand what a junior high school is I will quote

a definition given in "The Junior High School" by Thomas H. Briggs.*

"The junior high school is a special organization of one or more grades of 7 to 10—

a. Providing by various means for individual differences, especially by an earlier introduction of prevocational work and of subjects usually taught in the high school.

b. Providing departmental teaching, promotion by subject, differentiated curricula, and special attention to extra-class activities.

c. Providing by means of extensive and practical courses exploration for the pupils of various fields of learning and of the pupils' own interests, aptitudes, and abilities.

d. Providing training particularly to fit for life the pupils likely to leave school before completing the senior high school."

The senior high school is composed of grades 10, 11, and 12 or the three upper classes of the high school as now organized. If a new junior high school should be built, the present building would be used by the senior high school. I recommend that this be the plan because the mechanic arts and domestic science equipment would be used more by the junior grades than by the senior. It is important, of course, that those pupils who will use the equipment most should be in the building with it. The few senior pupils who would take the shop courses could easily go to the new

*Briggs, Thomas H., The Junior High School, P. 52.

building for that work. It is desirable that the new building be as near the present high school as possible so that pupils will not have too great a walk in going from one class to another.

A new school building, in my opinion, should be so planned that it can be used as a community center. The gymnasium could be used for games by any local team. Possibly classes in physical training would be formed by business men. Rooms could be provided for boys' and girls' clubs. Such organizations as the Woman's Club and Chamber of Commerce could meet there. This is a project that really is of interest to everybody in the city and I sincerely hope it may be taken up and pushed to a successful completion in the near future.

I want to take this opportunity to record my deep appreciation of the sincere friendship, the faithful co-operation, and true loyalty of the Rochester teachers, the janitors, attendance officer, and my secretary. No less do I appreciate also the constant support of the School Board and citizens. I carry with me pleasant memories of our work together and wish the schools all success in their future development.

Respectfully yours,

ALFRED W. SMITH.

Report of

High School Principal

Mr. William H. Buker, Supt. of Schools, Rochester, N. H.:

Dear Sir:—I herewith submit my first annual report as Headmaster of the Rochester High School.

The school has enrolled this year, 302 pupils.

REGISTRATION BY CLASSES

Class	Boys	Girls	Total	Loss
Senior,	16	31	47	1
Junior,	25	49	74	3
Sophomore,	49	46	95	2
Freshman,	48	36	84	6
Post-graduates,	2	0	2	1
Total,	140	162	302	13

The loss of thirteen pupils since the beginning of the fall term has been due to various reasons which are as follows:

Moving out of town,	3
Ill health,	2
To go to work,	4
To go to Vocational schools,	4

You will note that very few pupils left school because of failure to do high school work. We feel that this good record is due in no small way to the very close method by which pupils are checked, preventing for the most part the failure of a pupil for a short time from becoming permanent. Our percentage of failures is low, however, the scholarship of a great many of our pupils would be improved if the pupils would devote more time to home study.

SCHOOL AND HOME STUDY

The High School session is from 8 to 1. We have six forty-five minute periods in our school day. Pupils are required to take at least four subjects. This means that pupils with four subjects have two study periods in school. Pupils with five subjects, one study period. Teachers assign lessons which require at least one hour of preparation for each lesson assigned. This means that the pupil who has four subjects will be obliged to study for at least two hours at home each day. The co-operation of the parents is very essential in this matter of home study. All parents must realize that during the high school course, pupils should have the opportunity for such home study. Every teacher spends two afternoons a week at the high school for the purpose of helping their pupils. All omitted lessons must be made up after school hours and as soon as possible after the pupils return to school.

STANDING OF THE HIGH SCHOOL

The High School is a Class A school as ranked by

the State Department of Education. Graduates who obtain the rank of 85 are admitted to colleges and normal schools without examination. The continuance of this privilege depends on the record made in the college during the freshman year of our graduates.

ATTENDANCE

Good attendance depends to a certain degree upon good health. Our attendance is fair, but no doubt we have avoidable absences. If parents would remember that Saturday is the proper time for trips out of town, many days at school would be saved.

FACULTY

Our present corps of teachers is co-operating for the best interests of the school. Teachers are teaching five and six periods per day, and then find time for extra-curriculum work. I believe that the best interests of the school would be served by hiring teachers to teach five periods per day and do specific extra-curriculum work.

WORK IN THE CLASSROOM

We are doing a little more this year in the classroom to place more responsibility on the pupils themselves. We aim to develop in the pupils greater interest in the subject that they study. Socialized recitations, project work, investigations of original sources, and group forums are made a part of the classroom period. Such work, however, is successful only when proper preparation has been made by both teacher and pupil. We

must think more of the boy and girl and less of subject matter, more of mental and moral growth than the accumulation of statistical information.

The efficiency of the high school could be greatly increased by bringing supervised study into the classroom work.

STUDENT-ACTIVITY ASSOCIATION

The following is a brief financial report of the association.

Balance on hand June 30, 1922,	$588 35
Balance on hand June 30, 1923,	707 57

Profit, Sept. 1, to Dec. 15,	$449 42	
Balance, December 15, 1923,	1,156 99	

HIGH SCHOOL BUILDING

The high school building is placed in Class D by the State Department of Education. The fundamental basis of education in this state is equal opportunity to all the boys and girls in the state. The children of Rochester are not now having an equal educational opportunity with the great majority of young people, not only in New Hampshire, but in all New England, when their work is handicapped for lack of a proper building.

With no place for manual training and other industrial arts, with no place for physical training, and with no desirable place for basketball and other indoor athletics, the need of additions and a gymnasium is most pressing.

SIZE OF THE HIGH SCHOOL

Compared with high schools in cities and towns the size of Rochester, our high school enrollment is below the average. I believe that this is due to the fact that pupils are unable to find the type of work in which they are interested. They remain in school for a time and then drop out. The greatest loss is during the summer following graduation from grammar school. This is deplorable from the standpoint of their own best interests and is due in a large part to the fact that we offer no course which will prepare them for their future work. I believe that industrial courses such as are offered in Dover, Laconia and Sanford will overcome this loss.

EXTRA-CURRICULUM WORK

The school has the following organizations: Student-Activity Association, Class Organizations, Glee Club, Orchestra, Debating Club, Red and White Staff. Meetings of the various organizations are held during school hours, according to Parliamentary Law. All meetings are conducted by the pupils. A member of the faculty is present as an adviser. We attempt in these meetings to teach the pupils the correct method of conducting such meetings in the hope that it will enable them to assume the full responsibilities of citizenship in the future. Besides the above organizations, the pupils under the direction of Mrs. Allen publish a school paper, "The Red and White." Class debating teams are being organized and it is hoped that a varsity team will develop from the class teams. A girls' hiking club was organized in the fall but due to sickness and lack of a teacher to take charge, the girls have been able to have only a few hikes.

BASKETBALL

Through the interest and generosity of the citizens of Rochester the sum of $210 was raised by subscription to be used to hire a hall for basketball. The school board also contributed $100 for this purpose.

HONORS

The Springfield Scholarship was awarded to Miss Helen Foss, now a freshman at Bates College. The Dartmouth Medal for excellence in scholarship was awarded to Miss Edyth Hooper of the class of 1926.

Large scholarship R's were awarded Phyllis Wilson, Lillian Roberts, Marion Boyce, Elfreida Emery.

Students who have received small scholarship R's:

SENIORS

The co-operation on the part of the School Board and the Superintendent is greatly appreciated, and I feel sure it will meet with continued loyalty and good service on the part of the teachers. As teachers, we

feel that we are here not only to teach but to play an active part in the extra-curriculum activities and the life of the community. This can be obtained by co-operation between the school authorities, the teachers, the pupils and the parents.

Respectfully submitted,

ELWOOD S. FRASER,

Headmaster.

Report of Supervisor of Music

To the Superintendent of Schools:

Public school music has made great progress in the past ten years, and is rapidly becoming recognized as of equal importance with the other subjects in the school curriculum. Correctly taught, music develops very appreciably the child's power of concentration.

The *aim* of school music is to develop in the child a love and appreciation of good music. In order to attain this there must be a certain amount of preparation, or technical work. A supervisor should bear in mind, however, that the technical work is only a means to an end, and he should not run the risk of defeating his ultimate purpose by over emphasizing this phase. We have found it necessary in the Rochester schools this year to dwell rather strongly on the technical side, but it is our purpose to gradually diminish the amount of time given to this, and proportionately increase the amount spent in actually singing. We want the boys and girls to *love to sing,* not only while they are in school but after they go out into the world.

In some of the school rooms there are only half enough books for the class, and even these are in a very dilapidated condition. This should be remedied if the best results are to be obtained.

Respectfully submitted,

LOUISE K. BROWN.

Report of

Medical Inspector and School Nurse

For the School Year 1922-1923

To the Superintendent of Schools:

We herewith submit the Medical Inspector's and School Nurse's report for the year 1922-1923:

Number of pupils examined,	1,243
Pupils not examined at parents' written request,	6
Pupils absent,	8
Pupils defective,	666
Pupils with defective teeth,	492
Pupils with hypertrophied tonsils,	232
Pupils with defective vision,	65
Pupils with cardiac disease,	13
Pupils with defective hearing,	4
Pupils 10% underweight,	160

Number of children treated and improved since last physical examination: teeth, 80; hypertrophied tonsils, 51; vision, 11; cardiac disease, 7; hearing, 1. The orthopedic cases are adjusted. There are three children attending school who are wearing double caliper braces and using crutches.

The classroom weight charts show at a glance just what the children are doing as to gain in weight each month. There are 160 children ten per cent. under-

weight and these children are greatly handicapped. The physical defects, chiefly hypertrophied tonsils, after receiving the proper treatment, have shown a marked improvement in their general appearance as well as an increase in weight.

We wish to express our appreciation of the co-operation and loyal support given us by the members of the School Board, Superintendent and teachers of our public schools, and all others who help to make this work a success.

Respectfully submitted,

JOHN H. BATES, M. D.

FRANCES EASTMAN, R. N.

In addition to the joint report above, I wish to state that there has been a marked improvement in the general physical condition of our pupils since the introduction of medical inspection and follow-up work by the school nurse. The annual examination serves to bring to the attention of the parents and teachers the physical defects which are so common, but without the systematic follow-up work of the nurse, medical inspection would meet with meagre success.

I feel, as I believe most of our citizens do, that our schools have met with a severe loss in the resignation of Miss Eastman. She worked with untiring zeal to promote the physical welfare of our school children and to inculcate among them a better knowledge of right living. So I feel that a great part of the improved health conditions is due to her efforts.

Just a few words in regard to the future of the work. Up to date communities realize now that the physical welfare of their school children is a public responsibility. A child's mental growth is bound to be retarded by physical defects, and these defectives often serve to retard the progress of the brighter children. At present we are without the services of a regular school nurse, but if the good work so well begun, shall not be allowed to take a backward step, it is absolutely necessary that we have a school nurse, at least one who is able to devote a certain portion of her time to the work.

Rochester needs the services of a public health nurse but the Visiting Nurse Association finds it a difficult matter to finance the services of two nurses so the most feasible plan at present is to co-operate with the School Board. Many cities the size of Rochester employ a full-time school nurse and it is not extravagant to say that we need one to devote at least half time to the physical welfare of our children.

Therefore I advise that the District Nurse Association and School Board conjointly secure the services of a competent public health nurse to share equally in services and expenses.

Respectfully submitted,

JOHN H. BATES, M. D.

Report of Playground Supervisor

To the Superintendent of Schools:

The Playground was opened and supervised for the first two weeks by Cecelia C. Sylvain. A regular program was scheduled and followed during the remaining weeks of July and August. The morning attendance was small and sometimes the scheduled program had to be changed; but in the afternoon the park was usually alive with children ranging in age from two to eighteen, all ready for games, stories, a swing, or perhaps, a slide. The average attendance was about thirty-five which seems very small for a city the size of Rochester, but was perhaps due to the fact that the playground is not very centrally located. However those who did go enjoyed plays and games, races, contests, story hours, and also the apparatus.

Most of the old apparatus was repaired and settees were placed in convenient places under the trees. A volley ball and net were installed, and volley ball proved to be a favorite sport among boys and girls of all ages.

On the last day, many of the children brought their lunches and had an all day picnic. In the afternoon there were contests, races, peanut hunts, and games for the older children, and games and stories for the smaller ones.

I wish to thank all those whose kind co-operation helped to make the summer at the Playground a successful one.

"Just as sunlight kills most of the deadly germs, so outdoor life with exercise and play takes care of most of the unhealthy habits and ideas of child life."

—Clarence Darrow.

Respectfully submitted,

DORIS MEADER.

SCHOOL SESSIONS

High School, 8.00 A. M. -1.00 P. M.

Allen, School St., Maple St., 8.45-11.45 A. M. and 1.15-3.15 P. M.

East Rochester, 9.00-11.55 A. M., and 1.15-3.20 P. M.

Gonic, 8.45-11.45 A. M. and 1.00-3.00 P. M.

Meaderboro, 8.45-11.45 A. M. and 1.00-3.15 P. M.

HOLIDAYS

Labor Day, Columbus Day, Thanksgiving Day, with the Friday following, Christmas Day, New Year's Day, Washington's Birthday, Fast Day, Memorial Day, and every Saturday.

NO-SCHOOL SIGNAL

Two blasts upon the fire alarm, repeated once.

At 7.05 A. M., all schools closed for the forenoon.

At 8.00 A. M., elementary schools closed for the forenoon.

At 12.30 P. M., all schools closed for the afternoon.

At 11.15 A. M., all grades dismissed at the usual morning closing hour for the rest of the day.

The same signals will be sounded in Gonic and East Rochester.

TUITION

Tuition for non-resident pupils is $70.00 a year for the High School and $48.00 a year for the elementary schools.

Non-resident pupils desiring to be admitted to Rochester schools should first secure a written permit from the superintendent of schools.

Graduation Exercises
